

## Endorsements for Chuck Black's *Call to Arms*

“Written in blood. That’s what fighter pilots say about the emergency pocket checklist we take into combat. “Call to Arms” is a handy pocket checklist you can carry into combat. Written in the blood of destroyed families due to defeated dads, “Call to Arms” equips you with quick and proven ideas you can put into action. Don’t write your family’s history in the blood of defeat. Write it in the blood of “The Guts and Glory of Courageous Fatherhood.”

– Captain Eric Tibbets, retired U.S. Naval Aviator, combat veteran and father of four

“Every father needs this book...I needed this book. An easy read packed with powerful truth. As I read it, I was convicted of the need to change my tactics in several areas of my mission of fatherhood. Thought provoking and full of practical insights. If you want to be a more effective father, read this book!”

– Commander Bob Paulson, retired U.S. Naval Aviator and homeschooling Dad
